

One Joint Sets

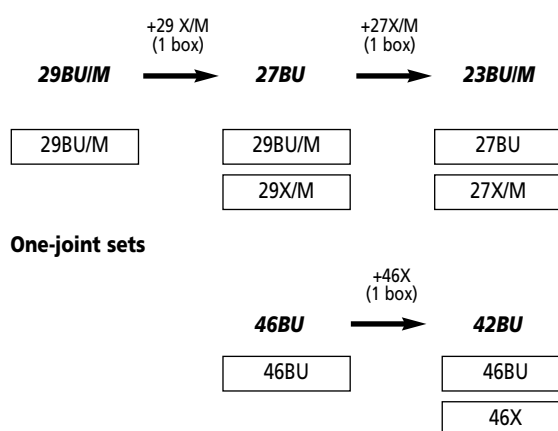

A comprehensive range of Quickfit jointed glassware sets and extension kits covering the practical chemistry requirements of teachers, students, researchers and industrial laboratories.

- ◆ Suitable for both inorganic and organic chemistry
- ◆ Single joint size fitting throughout each set scale level:
 - 17BU: 10/19
 - 29BU/M, 27BU, 23BU/M: 14/23
 - 46BU, 42BU: 19/26
- ◆ Semi-micro scale with flask capacities from 5ml to 250ml
- ◆ Extension kits for most sets increase versatility
- ◆ Most sets are supplied in boxes which fit into a normal laboratory bench drawer and have compartments to both safely protect the contents and to utilise the least amount of storage space

Summary of Sets

	No. of components	Scale	Typical use
17BU	7	up to 15g	Students
29BU/M	5	up to 30g	Students
27BU	9	up to 30g	Teaching
23BU/M	17	up to 30g	Teaching/Research/Industry
46BU	11	up to 150g	Students
42BU	22	up to 150g	Teaching/Industry

The progression of these Sets and Extension Kits is as follows:
