

Sieving

Test Sieves, Metal

Endecotts

Test Sieves, Endecotts

Diameter 200mm. Full height. In nesting frame. To ISO3310:2016. Stainless steel with stainless steel mesh.

- ◆ Precisely manufactured, seamless frames with structured rims
- ◆ Crevice-free construction designed to give optimum performance
- ◆ Evenly tensioned mesh with precisely measured apertures
- ◆ Supplied with certificate of conformity and individually serial numbered

Nominal aperture mm	Stainless steel frame
16.0	SF520-20
13.2	SF520-23
11.2	SF520-26
9.50	SF520-29
8.00	SF520-32
6.70	SF520-35
5.60	SF520-38
4.75	SF520-41
4.00	SF520-44
3.35	SF520-47
2.80	SF520-50
2.36	SF520-53
2.00	SF520-56
1.70	SF520-59
1.40	SF520-62
1.18	SF520-65
1.00	SF520-68

Test Sieves, Endecotts, continued

Nominal aperture microns	Stainless steel frame
850	SF524-12
710	SF524-15
600	SF524-18
500	SF524-21
425	SF524-24
355	SF524-27
300	SF524-30
250	SF524-33
212	SF524-36
180	SF524-39
150	SF524-42
125	SF524-45
106	SF524-48
90	SF524-51
75	SF524-54
63	SF524-57
53	SF524-60
45	SF524-63
38	SF524-66

Cover/receiver sets

Diameter 200mm.

SF528-08 Stainless steel

Sieve brush

Double ended for use with both fine and coarse sieves.

SF512-10 Sieve brush

Alternative sieve diameters and standards specifications, such as ASTM E11, are available — details on request.
